# Empowering Tomorrow

**Jing Lyon, Entrepreneur Programs Director  
BRITE Energy Innovators**

In our pursuit of a sustainable and electrified future, the significance of batteries is undeniable. This presentation, titled "Empowering Tomorrow: Navigating the Battery Future," explores pivotal aspects of the battery landscape.

Scott Peters—President

Commencing with an examination of battery types driving energy storage innovation, we traverse from traditional lithium-ion to emerging technologies, delving into their unique characteristics and applications. Specifically, we dissect the two major applications of EV vs Stationary to understand these distinct markets. A broad landscape overview follows, offering a macroscopic view of the battery market, and shedding light on challenges and opportunities within the space. The discussion extends to the impact of federal funding and incentives, concluding with an insightful overview of what is happening in our region.

# Akron Section Society of Plastics Engineers Educational Foundation

06-22

The Akron Society of Plastics Engineers Educational Foundation operates exclusively for the benefit of and to carry out the purposes of the Akron Section of the Society of Plastics Engineers, which is to promote scientific and engineering knowledge relating to plastics by making educational scholarship grants to deserving students in the field of plastics engineering and related subjects. The Organization is supported primarily by contributions from the Akron Society of Plastics Engineers, the Society's individual members and corporations like yours affiliated with the polymer industry.

Since the inception in 1983, the Akron Society of Plastics Engineers Educational Foundation has grown to its current position through the hard work of many volunteers and the generosity of the local business community. Over the nearly forty years that the foundation has been in existence, it has provided over 300 scholarships to young men and women totaling in excess of \$441,000 to assist them in furthering their careers in the polymer industry.

Our goal is to continue to grow the assets of the Foundation in order to increase the number of scholarships awarded, as well as the size of the awards, and to do so in perpetuity. In doing this, we hope to be able to contribute to the supply of well-trained individuals to support the growth of the polymer industry in the Northeast Ohio area today and well into the future.

When the Foundation began its fund raising activities in 1983, we offered those companies who contributed a substantial donation, a perpetual annual scholarship in their name. To date we have four named scholarships, Newell/Rubbermaid, Goodyear, Ken Sharp Memorial and Jim Steiner Memorial scholarships. We are asking your company to help with the growth of well-trained individuals in the local polymer industry. Please print this page, fill out the information and mail it to David Schultz, 610 Berkshire Drive, Medina, Ohio 44256.
